Brief description

The details concerning establishment, composition, function and dissolution of the Liaison Committee (Skakelkomitee) have not yet been researched. It apparently served as a link between the Executive Committee (Landelike Uitvoerende Komitee, LUK) and the various departments of the Administration for South West Africa for the implementation of development projects emanating from the Odendaal Plan.

These files were not transferred in an orderly way, but found outside any administrative context in library and archival material cleared out from the Parliament and Office of the Prime Minister Buildings shortly after independence which ended up at the National Library, probably because their appearance as bound volumes suggested a library context. They were retrieved from uncatalogued library material storage in 2008. As they were found scattered and in multiple volumes, one may assume that they originated from the offices of parliamentarians of the dissolved Legislative Assembly of the Whites, which resided in what is now the Prime Minister's Office.

All the material is bound, as one volume per session, including folded maps and plans. At this stage it is not known whether the series is complete.

All text is in Afrikaans. This appears to be a good source of condensed information about the implementation of the Odendaal Plan in a critical period of Namibian history.
