Introduction

It is currently not clear when and how this disappointingly small and obviously incomplete fonds was transferred to the National Archives. The undated anonymous first version of this finding aid gives no details. However, it can be assumed that this is a fragment of an originally much more substantial fonds of records which got somehow separated from the rest. This issue requires further research in the transfer files.

The individual files are entered on the database FILES.

Werner Hillebrecht, December 2012
